The "Best of the Best"

Imagine your office gutted, cleaned and redesigned in just ten days—that's what Dr. Murray A. Rosen, a chiropractic sports physician and his staff from Calgary, Alberta did! Since their lightening quick renovation, this practice has enjoyed an increased amount of counter and storage space, in addition to more efficient and spacious treatment rooms and patient waiting areas. The office also showcases a massage and exercise therapy area enclosed by panes of glass, to provide sports therapy in one convenient location.
